Hi Don. We are currently working on updating that FIP. This is the reason Neha and OAQPS have some preliminary model runs. If you have questions on the status of the Regional Haze FIP, we can ask our Region 2 contact on that.

Subject: [EXTERNAL] today's call

Thank you for your time and attention today regarding the Class I AQRV requirements for the Limetree Bay PAL permit in St. Croix.

I will send you the materials and we can reconvene next Thursday, May 21st. I am copying Joseph Siegel our ORC contact for this project.
